1. (Internal Use Only - JSW) Talked with Mr. Darden following up on the question of the adequacy of the existing authorization for the Headquarters building to cover constructing the building for the printing plant. After reviewing the pertinent laws, Mr. Darden agreed that our existing authorization is adequate. ✓

2. (Internal Use Only - JSW) [redacted] and John S. Warner met with Mr. Braswell and Mr. Darden to discuss further our proposed retirement bill. Mr. Braswell has various figures and costs on a different basis from that which was used with the House Committee. For example, he has requested that our costs be recomputed on the basis of the new salary established in the pay bill which has not yet been signed by the President. Mr. Braswell almost certainly will suggest to Senator Russell that a number of minor features of this bill do not appear necessary to him. I am also concerned that his request for additional information may be in part a question of delaying tactics particularly in view of his comment that he really should have a month to go into this and construct an entirely new bill.

3. (Unclassified - JSW) Attempted to reach Senator Symington to discuss the [redacted] case. He had just left for the State and we will be in touch with him on Monday when he returns.
